Portfolio: <https://immy.netlify.app/>

Professional Summary;

Motivated and detail-oriented Software Engineering graduate with hands-on experience building full-stack web and mobile applications using modern technologies. Skilled in Agile methodology, Git-based version control, and collaborative development. Seeking an opportunity to contribute to impactful projects while continuing to grow as a developer.

Skills

Technical Skills

- **Languages and Frameworks:** JavaScript, Node.js, HTML, CSS, React, React Native, Bootstrap
- **Databases:** MongoDB, PostgreSQL
- **Tools:** Git, GitHub, Agile/Scrum
- **Other:** UI/UX Design Principles, Mobile-first Development

Soft Skills

- **Communication:** Able to explain complex technical concepts clearly to different audiences.
- **Collaboration:** Enjoy working in team environments, contributing to group success.
- **Problem-Solving:** Strong at identifying issues and coming up with practical solutions.
- **Adaptability:** Comfortable adapting to new tools, technologies, and changing priorities.
- **Time Management:** Skilled at juggling multiple tasks and meeting deadlines.
- **Attention to Detail:** Focused on catching small issues before they become bigger problems.
- **Leadership:** Comfortable taking the lead when needed and mentoring others.
- **Emotional Intelligence:** Can stay calm under pressure and work well with others.
- **Proactiveness:** Always looking for ways to improve processes and take initiative.

- **Customer-Focused:** Passionate about creating solutions that improve the user experience.

Experience & Projects

Enigma Kreative Limited, January 2025 - June 2025

Role: Software Developer

Duration: 6 months

Xtreative market, an online eCommerce platform that connects local creatives to customers, helping them sell products efficiently, manage businesses, and access financial support.

- Developed a full-stack multi-vendor eCommerce platform allowing creatives to register as vendors, list products, manage inventory, and process orders.
- Implemented wallet-based transactions, vendor earnings tracking, and a loan eligibility system driven by sales performance metrics.
- Integrated dynamic order filtering, receipt generation, and real-time notifications to enhance vendor experience and platform usability.
- Delivered vendor-specific data access controls to ensure each vendor views only their relevant sales in a shared environment.

Technologies: React Native, Django REST Framework, PostgreSQL, GitHub, Agile

KGL Grocery Limited, May 2024 - September 2024

Role: Software Developer (Academic Project)

Duration: 4 months

- Designed and developed a web-based inventory and sales management system for a wholesale produce distributor.
- Implemented automated tracking for procurement, sales, and stock levels to reduce human error.
- Developed a manager dashboard with real-time sales reporting and analytics.
- Integrated credit and cash sales processing with automatic receipt generation.
- Ensured seamless user experience with validation mechanisms for accurate data entry.

Technologies Used: Node.js, Express.js, MongoDB, Pug, JavaScript, Bootstrap 5.

Education

- Certificate in Software Development – Refactory Academy, 2024
- Uganda Advanced Certificate of Education (UACE) – Oxford Secondary School, 2023

- Uganda Certificate of Education (UCE) – Oxford Secondary School, 2020

Certifications & Achievements

- Certification in Software Engineering – 2024
- Introduction to MERN Stack – SkillUp, 2024
- AI for Beginners – HP LIFE, 2024

Languages

- **English:** Fluent
